	Questions and Answers Key of IA Exam, 2013	
Sr. No.	Questions	Correct Option Description
1	Find the missing term in the following series: 10000, 11000, 9900, 10890, 9801 ?	10781
2	Choose the correct alternative that will continue the same pattern and replace the question mark in the given series: 1,9,25,49,?,121	81
3	Which fraction comes next in the sequence : 1/2, 3/4, 5/8, 7/16?	9/32
4	Choose the missing term out of the given alternatives U,B,I,P,W,?	D
	Choose the correct alternative:	
5	Assam : Bihu : : Kerala : ?	Kathakali
	Choose the missing terms out of the given alternatives	
6	ABD, DGK, HMS, MTB, SBL, ?	ZKW
7	Choose the correct alternative:	Caral
7	Flower: Bud:: Plant:?	Seed
8	Tennis is related to Court in the same way as Boxing is related to?	Ring
9	A family has a man, his wife, their four sons and their wives. The family of every son also has three sons and one daughter. Total number of male members in the whole family is	17
10	Konkani is related to Goa in the same way as Dogri is related to	Jammu
11	The animal shown in the National Emblem of India, are	Horse, Bull, Lion, Elephant
12	The first speaker of Lok-Sabha was	G.V.Mavlankar
13	By which Constitutional Amendment, Free and compulsory Education for children (6 to 14 years) was inserted as Fundamental Rights?	86th
14	Delhi - Mumbai Industrial Corridor Project is being established in the partnership of	India - Japan
15	Who is the winner of World Billiard Championship 2012	Pankaj Advani
16	The book wrote by A.P.J. Abdul Kalam is	Turning points - A Journey Through Challenges
17	The resolution to establish Legislative Council by Rajasthan Vidhan Sabha in Rajasthan was passed on	18th April, 2012
18	Who was honoured with the Meera Prize given by Rajasthan Sahitya Academy for the Year, 2011-2012?	Ambika Dutt
19	Between 2 o' clock to 10 o' clock, how many times the hands of a clock are at right angle?	14
20	When did the naval mutiny take place in British India ?	1946
21	By wich event did the civil disobedience movement begin ?	Dandi March
22	The producer of T. V. show Satyameva Jayate is -	Amir Khan
23	Maharana Kumbha is given the credit of building how many number of forts ?	32
24	The Taragarh fort of Ajmer is also known as -	Garh Beethly
25	Nihal chand belongs to which style of painting of Rajasthan ?	Kishangar
26	From which place the publication of news papers started in Rajasthan?	Ajmer
27	Where was the first Praja Mandal founded in Rajasthan ?	Jodhpur
28	Which princely state was not included in Matsya Sangh?	Jaipur
29	The religious sect which performs Agni Nritya is	Jasnathi
30	Which Folk-Devta is related to Kolu Village ?	Pabuji
		Software system used to create,
31	A database management system (DBMS) is a:	maintain, and provide controlled access to a database.
		controlled access to a database.
31 32 33	A database management system (DBMS) is a: The property / properties of a database is / are : Gigabit Ethernet has a data rate ofMbps	· ·

	A layer-4 firewall (a device that can look at all protocol headers up to	block entire UTTD traffic
35	the transport layer) CANNOT	block entire HTTP traffic between 9:00PM and 5:00AM
36	Digital signature cannot provide for the message.	Confidentiality
37	Find the angle between the hour hand and the minute hand of a clock in degrees, when the time is 25 minutes to 8.	17.5
38	A bootstrap is:	A small initialisation program to start up a computer
39	What will be the decimal equivalent of the binary number (111011.101), given in base 2	59.625
40	What will be the hexadecimal equivalent of decimal number 54977	DC61
11	A hexa decimal number 'A0' has the decimal value	160
42	Which technique is preferable for transferring a large amount of data to and from a memory in a short time ?	DMA
43	The simultaneous transmission of data to a number of stations is known as	Broad cast
44	For each instruction of program in memory the CPU goes through a	fetch - decode - execute sequence
45	What is the default subnet mask for a class C network?	255.255.255.0
46	The Internet Control Message Protocol (ICMP)	All of these
47	Which of the following TCP/IP protocols are used for transferring electronic mail	CNATO
47	messages from one machine to another?	SMTP
18	What can greatly reduce TCP/IP configuration problems?	DHCP Server
19	What is the port number for NNTP?	119
50	When the compiler cannot differentiate between two overloaded constructors, they are called	Ambiguous
51	A & B are brothers. C and D are sisters. A's Son is D's brother. How is B related to C?	Uncle
52	How many OSI layers are covered in the X.25 standard?	Three
53	What router command allows you to determine whether an IP access list is enabled on a particular interface?	Show ip interface
54	How long is an IPv6 address?	128 bits
55	What flavor of Network Address Translation can be used to have one IP address allow many users to connect to the global Internet?	PAT
56	Which protocol does DHCP use at the Transport layer?	UDP
57	What Is the following ? extern int i;	Declaration
58	If the two strings are identical, then strcmp() function returns	0
59	HTML and XML are markup languages	Are based on SGML
60	If the seventh day of the month is three days earlier than Friday, what day will it be on the ninteenth day of the month?	Sunday
61	All of the following are part of Porter's five forces, except:	Consumer power
52	Graphics for word processor	Clip art
53	The value of binary 1111 is	15
54	What is the address given to a computer connected to a network called?	IP Address
65	What part of 192.168.10.51 is the Network ID, assuming a default subnet mask?	192.168.10
66	If 73 (in base x number system) is equal to 115 (in base y number system), the possible values of x and y are	16, 10
67	The hexadecimal representation of the binary number (110101111) given in base 2 is	1AF
68	Which one is NOT a web browser?	Foxpro
69	Which one of the following is invalid variable name in C language?	St.Name

The value of j at the end of the execution of the following C program is int incr (int i) { static int count = 0; count = count + i; return(count); } main { } { in MS Excel which of the following functions will use to find the highest number in a series of numbers? in MS Excel which of the following functions will use to find the highest number in a series of numbers? In MS Excel which of the following functions will use to find the highest number in a series of numbers? In MS Excel which of the following functions will use to find the highest number in a series of numbers? RMS UTF Date has			
reires of numbers? Rays UTP cable has	70	<pre>int incr (int i) { static int count = 0; count = count + i; return(count); } main () { int i , j ; for (i=0; i<=4;i++)</pre>	10
Table The product of two binary numbers 1011 and 1001 is 1100011	71		max(B1:B5)
The product of two binary numbers 1011 and 1001 is Which of the following will not protect you from spam? Popup blocker Which of the following will not protect you from spam? Popup blocker Vacuum Tubes and Valves The rule for implicit type conversion in C is CPU stands for CPU stands for CEntral Processing Unit UCD stands for Liquid Crystal Display Which of the following techniques is best suited for bank cheques? Magnetic Ink Character Recognition Where was India's first computer installed and when? Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Sorting Which of the following is India's first Supercomputer? PARAM Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? Which of the following is a sequential access device Magnetic Tape Which of the following is a sequential access device Magnetic Tape Which was the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Which company developed the quick time format? Apple Linux is a type of	72	RJ45 UTP cable hascables	4 Pair
The product of two binary numbers 1011 and 1001 is Which of the following will not protect you from spam? Popup blocker Which of the following will not protect you from spam? Popup blocker Vacuum Tubes and Valves The rule for implicit type conversion in C is CPU stands for CPU stands for CEntral Processing Unit UCD stands for Liquid Crystal Display Which of the following techniques is best suited for bank cheques? Magnetic Ink Character Recognition Where was India's first computer installed and when? Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Sorting Which of the following is India's first Supercomputer? PARAM Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? Which of the following is a sequential access device Magnetic Tape Which of the following is a sequential access device Magnetic Tape Which was the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Which company developed the quick time format? Apple Linux is a type of	73	In a 'C' program, constant is defined	After main
76 Chief component of first generation computer was 77 The rule for implicit type conversion in C is 78 CPU stands for 79 LCD stands for 79 LCD stands for 80 Which of the following techniques is best suited for bank cheques? 81 Where was India's first computer installed and when? 82 The arranging of data in a logical sequence is called 83 Which of the following is india's first Supercomputer? 84 Which of the following gives best graphical output? 85 Which of the following gives best graphical output? 86 I kilobyte is equal to	74		1100011
76 Chief component of first generation computer was 77 The rule for implicit type conversion in C is 78 CPU stands for 79 LCD stands for 79 LCD stands for 80 Which of the following techniques is best suited for bank cheques? 81 Where was India's first computer installed and when? 82 The arranging of data in a logical sequence is called 83 Which of the following is india's first Supercomputer? 84 Which of the following gives best graphical output? 85 Which of the following gives best graphical output? 86 I kilobyte is equal to	75	Which of the following will not protect you from spam?	Popup blocker
Central Processing Unit CD stands for Liquid Crystal Display Which of the following techniques is best suited for bank cheques? Magnetic Ink Character Recognition Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Sorting Mich of the following is India's first Supercomputer? PARAM Which of the following is India's first Supercomputer? Pharam Which of the following gives best graphical output? Plotter It Kilobyte is equal to	76	Chief component of first generation computer was	Vacuum Tubes and Valves
Central Processing Unit CD stands for Liquid Crystal Display Which of the following techniques is best suited for bank cheques? Magnetic Ink Character Recognition Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Sorting Mich of the following is India's first Supercomputer? PARAM Which of the following is India's first Supercomputer? Pharam Which of the following gives best graphical output? Plotter It Kilobyte is equal to	77	The rule for implicit type conversion in C is	int <unsigned<float<double< td=""></unsigned<float<double<>
Which of the following techniques is best suited for bank cheques? Magnetic Ink Character Recognition More was India's first computer installed and when? Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Sorting Which of the following is India's first Supercomputer? PARAM Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? USB Port Kilobyte is equal to bytes Mich of the following is a sequential access device Which of the following is a sequential access device Which which of the following is a sequential access device Which which we not the keyboard takes us to the beginning of the line? To permanently delete a file or folder from the computer, we use Which company developed the quick time format? Which company developed the quick time format? Which company developed the quick time format? Which says there in the following? How many 5s are there in the following? Microsoft word is a part of which of following? Which of the following is not a document view? Work View More Work View More Work View Work View The left as well as right side of the paragraph are aligned it is called Which of the following is a shortcut key for "Saye as" F12 Which of the following is a shortcut key for "Spelling and Grammar" F7			
Which of the following techniques is best suited for bank cheques? Recognition Where was India's first computer installed and when? Indian Statistical Institute, Calcutta, 1955 The arranging of data in a logical sequence is called Which of the following is India's first Supercomputer? PARAM Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? USB Port It illobyte is equal to	79	LCD stands for	Liquid Crystal Display
The arranging of data in a logical sequence is called Which of the following is India's first Supercomputer? PARAM Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? USB Port I Kilobyte is equal to	80	Which of the following techniques is best suited for bank cheques ?	-
Which of the following is India's first Supercomputer? Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? USB Port I Kilobyte is equal to bytes Mich of the following is a sequential access device Which of the following is a sequential access device Which key on the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Which company developed the quick time format? Apple Linux is a type of software Microsoft word is a part of which of following? How many 5s are there in the following sequence which are immediately followed by 3 but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 Which of the following is not a document view? Work View In office XP, "Ruler" for top and left margin is available in which menu? View Which of the following is a shortcut key for "Save as" F12 Which of the following is a shortcut key for "Spelling and Grammar" F7	81	Where was India's first computer installed and when ?	
Which of the following is India's first Supercomputer? Which of the following gives best graphical output? Plotter Which of these is considered a replacement for serial and parallel ports? USB Port I Kilobyte is equal to bytes Mich of the following is a sequential access device Which of the following is a sequential access device Which key on the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Which company developed the quick time format? Apple Linux is a type of software Microsoft word is a part of which of following? How many 5s are there in the following sequence which are immediately followed by 3 but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 Which of the following is not a document view? Work View In office XP, "Ruler" for top and left margin is available in which menu? View Which of the following is a shortcut key for "Save as" F12 Which of the following is a shortcut key for "Spelling and Grammar" F7	82	The arranging of data in a logical sequence is called	Sorting
Which of the following gives best graphical output? Which of these is considered a replacement for serial and parallel ports? USB Port I Kilobyte is equal to			PARAM
Which of these is considered a replacement for serial and parallel ports? 1 Kilobyte is equal to	84	· · ·	Plotter
Which of the following is a sequential access device Which key on the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Shift + Delete Which company developed the quick time format? Apple Linux is a type of	85		USB Port
Which of the following is a sequential access device Which key on the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Shift + Delete Which company developed the quick time format? Apple Linux is a type of	86	1 Kilobyte is equal to bytes	1024
Which key on the keyboard takes us to the beginning of the line? Home Key The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Shift + Delete Microsoft word is a type of			
The operating system that allows multiple programs to run at same time is Multitasking To permanently delete a file or folder from the computer, we use Shift + Delete Microsoft company developed the quick time format? Apple Linux is a type of			
91 Which company developed the quick time format? 92 Linux is a type of			·
91 Which company developed the quick time format? 92 Linux is a type of	90	To permanently delete a file or folder from the computer, we use	Shift + Delete
Linux is a type ofsoftware 93 Microsoft word is a part of which of following? How many 5s are there in the following sequence which are immediately followed by 3 but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 95 Which of the following is not a document view? 96 In office XP, "Ruler" for top and left margin is available in which menu? 97 If the left as well as right side of the paragraph are aligned it is called 98 Which of the following is a shortcut key for "Save as" 99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
Microsoft word is a part of which of following? How many 5s are there in the following sequence which are immediately followed by 3 but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 95 Which of the following is not a document view? Work View 96 In office XP, "Ruler" for top and left margin is available in which menu? View 97 If the left as well as right side of the paragraph are aligned it is called 98 Which of the following is a shortcut key for "Save as" F12 99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
How many 5s are there in the following sequence which are immediately followed by 3 but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 95 Which of the following is not a document view? Work View 96 In office XP, "Ruler" for top and left margin is available in which menu? View 97 If the left as well as right side of the paragraph are aligned it is called 98 Which of the following is a shortcut key for "Save as" F12 99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
but not immediately preceded by 7? 8 9 5 3 2 5 3 8 5 5 6 8 7 3 3 5 7 7 5 3 6 5 3 3 5 7 3 8 95 Which of the following is not a document view? Work View 96 In office XP, "Ruler" for top and left margin is available in which menu? View 97 If the left as well as right side of the paragraph are aligned it is called 98 Which of the following is a shortcut key for "Save as" F12 99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
95 Which of the following is not a document view? 96 In office XP, "Ruler" for top and left margin is available in which menu? 97 If the left as well as right side of the paragraph are aligned it is called 98 Which of the following is a shortcut key for "Save as" 99 Which of the following is a shortcut key for "Spelling and Grammar" F7	94	but not immediately preceded by 7 ?	Three
96In office XP, "Ruler" for top and left margin is available in which menu ?View97If the left as well as right side of the paragraph are aligned it is calledJustified98Which of the following is a shortcut key for "Save as"F1299Which of the following is a shortcut key for "Spelling and Grammar"F7	05		Work View
98 Which of the following is a shortcut key for "Save as" F12 99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
98 Which of the following is a shortcut key for "Save as" F12 99 Which of the following is a shortcut key for "Spelling and Grammar" F7	07	If the left as well as right side of the necessary are aligned to be a first	1aki£i a al
99 Which of the following is a shortcut key for "Spelling and Grammar" F7			
too pyriich area in an excer window allows entering values and formulas? Formula Bar	-		
	100	vvilicii area iii ari Excel willuow allows entering values and formulas?	Formula Bar

	Which menu option can be used to split windows into two parts in MS Office 2007?	View -> Split
102	In MS Excel, Comments put in cells are called	Cell Tip
103	In MS Excel, getting data from a cell located in a different sheet is called	Referencing
104	In MS Excel, a numeric value can be treated as a label value if precedes it	Apostrophe (')
105	If 3 + 9 = 31; 15 + 12 = 45; 18 + 9 = 36, then 12 + 27 = ?	94
	In MS Excel, how do you rearrange the data in ascending or descending order?	Data, Sort
107	What do you mean by a Excel Workspace?	Group of Workbook
108	Which of the following is not a font style ?	Border
	If 1 * 2 = 32; 4 * 3 = 712; 4 * 7 = 1128, then 5 * 1 = ?	65
	A File which contains readymade styles that can be used for a presentation is called	Template
111	In MS PowerPoint, to insert new slide in the current Presentation, we can choose	Ctrl+M
112	If 3 +5 = 16; 7 + 9 = 64; 10 + 12 = 121, then 11 + 3 = ?	49
	In Power Point Ellipse Motion is a predefined	Animation Scheme
	In MS PowerPoint 2007,to open an existing presentation, press	Ctrl + O
	What is an intersection of a row and a column?	Cell
	Microsoft Access is a	RDBMS
	Which objects are used to create a form in MS Access?	Tables and Queries
118	The Database Language to create the structure of a Database is	DDL
119	In MS Access, which of the following creates a drop down list of values to choose from?	Lookup Wizard
120	A student got twice as many sums wrong as he got right. If he attemted 48 sums in all, how many did he solve correctly ?	16
121	In a chess tournament each of six players will play every other player exactly once. How many matches will be played during the tournament ?	15
		15 Compile Time
	many matches will be played during the tournament ?	
122	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives?	
122 123	many matches will be played during the tournament ? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc	Compile Time acba
122 123 124	many matches will be played during the tournament ? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values ?	Compile Time acba Primary Key
122 123 124 125	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object?	Compile Time acba
122 123 124 125 126	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a:	Compile Time acba Primary Key Relationships Input device
122 123 124 125 126	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object?	Compile Time acba Primary Key Relationships
122 123 124 125 126 127	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a:	Compile Time acba Primary Key Relationships Input device ALU
122 123 124 125 126 127 128	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by:	Compile Time acba Primary Key Relationships Input device ALU
122 123 124 125 126 127 128 129	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store:	Compile Time acba Primary Key Relationships Input device ALU programs and data
122 123 124 125 126 127 128 129	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store: A diagram of an algorithm is called:	Compile Time acba Primary Key Relationships Input device ALU programs and data Flow chart
122 123 124 125 126 127 128 129 130	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store: A diagram of an algorithm is called: Tracks and sectors are related to;	Compile Time acba Primary Key Relationships Input device ALU programs and data Flow chart Hard disk
122 123 124 125 126 127 128 129 130 131	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store: A diagram of an algorithm is called: Tracks and sectors are related to; Octal number system contains:	Compile Time acba Primary Key Relationships Input device ALU programs and data Flow chart Hard disk None of these
122 123 124 125 126 127 128 129 130 131 132	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store: A diagram of an algorithm is called: Tracks and sectors are related to; Octal number system contains: Which computer virus records every movement you make on your computer? Software which converts a program into assembly language, is called O. M. R. stands for:	Compile Time acba Primary Key Relationships Input device ALU programs and data Flow chart Hard disk None of these Key logger Assembler
122 123 124 125 126 127 128 129 130 131 132	many matches will be played during the tournament? Function overloading happens at The missing letters in following sequence in the correct order are which among the following alternatives? a-bbc-aab-cca-bbcc Which key cannot have duplicate values? Which of The following is not a database Object? Mouse is a: Arithmetic calculations are done by: RAM can store: A diagram of an algorithm is called: Tracks and sectors are related to; Octal number system contains: Which computer virus records every movement you make on your computer? Software which converts a program into assembly language, is called	Compile Time acba Primary Key Relationships Input device ALU programs and data Flow chart Hard disk None of these Key logger Assembler
122 123 124 125 126 127 128 129 130 131 132 133 134 135	many matches will be played during the tournament?
