I. Process for Arriving at Scores

The Scores are obtained by adopting the following procedure:

- (i) Number of questions answered correctly by a candidate in each objective test is considered for arriving at the Corrected Score after applying penalty for wrong answers.
- (ii) The Corrected Scores so obtained by a candidate are made equivalent to take care of the minor difference in difficulty level, if any, in each of the objective tests held in different sessions to arrive at the Equated Scores*.

* Scores obtained by candidates on any test are equated to the base form by considering the distribution of the scores of all the sessions.

Note: Cutoffs were applied in two stages:

- (i) on scores in individual tests
- (ii) on Total Score

The details of the cutoffs applied on Scores in individual tests and on Total Weighted Score (TWS) is given below at (II).
