Beware of Touts and Cheats

In any Recruitment Process, towards the final stage, Cheats and Touts become active and try to make money by deceiving gullible Candidates with false promises. In this regard, these Criminals customarily employ certain characteristic methodologies like –

- (a) *Seeking deposit of a considerable amount of money in a Joint Bank Account or with a mediator, which will be taken away fully by the Broker if the Candidate is successful in getting a job (obviously the Broker is making money by playing on the chances of the Candidate)*
- (b) *Pretend to make fake phone-calls or set-up sham meetings with their accessories / associates, to make the Candidates believe that the Broker has an Insider-Contact who is influential enough to get the job. In some instances, the Candidate will be taken to Secretariat / Government Offices and will be made to wait outside while the Tout pretends to be meeting Senior Political / Bureaucratic Functionaries*
- (c) *Tell the Candidates that there will be quotas of so-many Posts / Vacancies set aside for Senior Political / Bureaucratic Functionaries which can be bought by paying large amounts of money in bribes*
- (d) *Use forged / fake documents and videos, e-mails and website-posts and other forms of communication, to make their false claims look authentic*

Candidates are strongly cautioned to beware of those unscrupulous elements / touts who try to dupe innocent people / unemployed youth with false promises of providing them jobs. Candidates are warned not to believe them or give any money to such people. If they do so, such Candidates automatically become ineligible for the all the recruitment opportunities of the government in the present as well as future.
